

# MANIFESTO

## WE ARE

**The voice of professional football leagues across Europe.**

---

Every weekend we deliver more than 450 club football matches to fans and the wider football community to support their enjoyment and passion for their favourite football team in their favourite competition.

**Our goal is to enhance and protect competitive balance in professional league competitions for the good of the game, the players, the fans and the clubs.**

## WE STAND FOR

---

The implementation of **Good Governance** principles in football to preserve and enhance the reputation of our sport.

The essence of **Sporting Merit** and sporting ability as the deciding factor in winning or losing, where unpredictable outcomes are possible, where the excitement and passion for the fans lies in the possibility their side could triumph.

We believe that all our clubs, not just a few, must have the possibility to compete at the highest levels.

We have the responsibility to keep that dream and ambition alive on behalf of the clubs and fans alike.

**GOOD GOVERNANCE  
SPORTING MERIT  
SOLIDARITY**

The principle of **Solidarity**, a financially sustainable environment with a more equitable sharing of financial resources as an essential tool to open up the elite competitions to a maximum number of associations and clubs which in turn boost the development of the game at grassroots and youth levels.
